* Limited, non-transferable warranty. See Operation & Maintenance Manual for details.

[†] +/- 0.5 inches per second. Speed will slow with one-piece doors.

The Genuine. The Original.

Battery Backup capable

Standard features and benefits

DC power

Powerful 140V DC motor operates with minimal noise.

Quiet operation

Belt and chain drive provide smooth and quiet operation, perfect for room adjacent garages that demand minimal noise. Belt drive offers the ultimate in quiet operation.

CodeDodger® access security system

The latest in CodeDodger® technology that selects a code from billions of combinations each time a remote or wireless keypad are used. Helps prevent piracy of the radio signal for the utmost in security.

Auto seek dual frequency range

The opener listens for both the 315 or 390 MHz frequency emitted by the remote or wireless keypad, allowing reliable operation and reducing frequency interference.

DoorDetect™ monitoring and diagnostic system

Delivers the optimal amount of power needed to efficiently and smoothly open even the heaviest doors. Stops the door when abnormal operation is detected for additional safety.

Self-diagnostic Safe-T-Beam® system

When objects pass through the infrared beam, the door automatically stops closing and then reverses.

Two-bulb lighting system

Two 100 Watt bulb lighting system provides added safety and convenience. Optional Overhead Door® LED bulb recommended.

Compatible with both HomeLink® and Car2U® systems – works with current and all previous versions. No additional external repeater kit or compatibility bridge needed.

California Residents:
As required by California State Law SB-969, all newly installed openers must have battery backup as of 07/01/2019.

† Available for use with Odyssey® and Destiny® garage door openers only.
* OHD Anywhere® is designed for sectional doors only and should not be used on one-piece garage doors.

Convenience options

*OHD Anywhere®

Remotely monitor and operate your garage door from almost any smart device. Up to 3 doors can be monitored and 20 users added with one system.

39394R

Battery Backup†

The Overhead Door™ Battery Backup can operate a garage door for up to 50 cycles in a 24-hour period after initial power outage.

37229R

Garage door opener LED bulb

Designed specifically for garage door openers. Reduces remote interference. Bright, long lasting LED technology. Vibration and shatter resistant.

40656R

1-Button Remote

Simple yet versatile one-button remote features auto-seek dual frequency. Can be used on a keychain or as a traditional visor style remote. Backward compatible with all CodeDodger® equipped Overhead Door® openers.

38502R

Digital wireless keypad

Lighted keypad features a flip up cover and lets you control up to three garage door openers.
